### ANNEX 4 - Continued

# THE BUILDING (FEES) (SCOTLAND) REGULATIONS 2004 FEES FOR STAGED WARRANT APPLICATIONS DISCOUNTED AND REFUND FEES FROM 1 MAY 2005

#### **Staged Building Warrant Applications**

The warrant fee for the initial stage of a staged warrant application will be based on the estimated value of the works being carried out in the **total project**.

Any additional stage has a £50 amendment administration charge payable, unless the estimated value of the works has increased in which case the fee appropriate to that value is payable.

If an application for building warrant has been registered and a request is later made to West Lothian Council to change the application to a staged application, as all information is not available, then the following procedure will apply.

- The warrant fee from the initial application shall be deemed to be the warrant fee for the initial stage covering whatever works are requested at the time of changing to a staged application.
- A separate staged amendment with appropriate £50 administration fee will then be required for all other works (unless the original value of the project has increased).

#### **Discounted Fee**

##### **(APPROVED CERTIFIER OF DESIGN)**

A warrant fee is discounted where certificates from approved certifiers of design are presented with the application, as below **[PLEASE NOTE: A discount is only permitted on an amendment to warrant application when the estimated value of the amended works exceeds £5000]**

where one or more such certificates are presented with a warrant application, by:-

- 10% for each certificate of design that covers **the whole of any section** of the functional standards, and
- 1% for each certificate covering **a single item in any such section**, up to a maximum of 5% for any one section;

all subject to a maximum discount of 60% of the warrant fee.

##### **(APPROVED CERTIFIER OF CONSTRUCTION)**

A warrant fee is discounted where notice is given on the application for building warrant of the intention to provide a certificate from an approved certifier of construction to accompany the completion certificate submission, by:-

- 1% for each appropriate certificate of construction from an approved designated scheme, up to a maximum of 20%,

#### **Note**

- If after giving notice of intent to use a certifier of construction a certificate from an approved certifier is not provided with the completion certificate submission, the amount of fee discounted requires to be paid to the verifier and may delay the acceptance of the completion certificate by the verifier.
- The discount is applied to the whole fee based on the value of work.
- The discount is applied where a late application for warrant is made.

#### **Working Out Fee**

Please note West Lothian Council may seek evidence for this figure, and make comparisons with established independent indices of building costs such as the B.C.I.S. published by the Royal Institution of Chartered Surveyors

The values are based on the current market values and not DIY costs.
